

Whitegate CE Primary School
"Trusting in God; Growing in Wisdom"

Whitegate E-Safety Path

At Whitegate School we follow this path of rules when using technology to keep ourselves and others safe.

- I will only go on websites and apps as instructed by the adults in school.
- I will ask for help when I see something I don't understand or trust.
- I will not share personal information about myself or others. E.g. my name, address or photographs.
- I will not share my usernames and passwords with other people except my teachers and parents/carers.
- I will not use the audio, picture or video features on technology without my teacher's permission.
- If using a website or app that allows 'chat' features, I will ask for my teacher's permission before communicating.*
- I will be kind online and tell my teacher if someone is being unkind to me.

If I do not follow these rules, I understand my use of technology at school could be limited or removed on a temporary or permanent basis.

I can speak to Miss Monks or the E-Safety officers if I have any worries or questions about technology and E-Safety.

**Teachers will be aware if they are asking children to access websites/app that allow 'chat' features before giving permission for children to access them.*
